

Ellie.....I would really like to meet other little kids who are like me and have Alopecia as well. Then we can play together and we can be the same and no one will tease us. That would be my Happy Ever After Story.

My Alopecia Story by Ellie.....

I was almost 4 years old when all my hair fell out. I am now 5 years old. I like Happy Ever After stories like Tangled and Frozen....they're my favourite! I like the colour pink and then purple best.

We tried to get medicine to help me get my hair back, but it didn't work. So now I wear hats. My favourite one is a red one that my Grandma gave me for my birthday this year.

I have 3 big brothers called Jordan, Brock & Zeke and I have a dog called Diesel and his birthday is the same day as mine. I used to have a lizard called Bella but she got sick and died.

I go to school and I'm in prep. I work hard at school to get stickers on my charts. I have a few friends at school who are really nice to me, but sometimes people say I am a boy because I have no hair. This makes me feel really sad because I'm not a boy, my hair just fell out.

My mummy bought me my first wig today, but it tickles and it's itchy so I don't like it very much. The lady who helped us at the shop was really nice and then we went to some markets and a very nice lady gave me a new clip for my new wig. It is just like a cup cake! I make sure I always have my hat on outside so I don't get sunburnt.

I would really like to meet other little kids who are like me and have Alopecia as well. Then we can play together and we can be the same and no one will tease us. That would be my Happy Ever After Story.
