

Stella 10.....I'm VERY happy now in my school and I have a great family and friends and I'm happy to live a very bald and happy life!!!!

me and my sister Sylvie

It all started when I was 4 and I had a patch at the back of my head, but luckily it grew back.

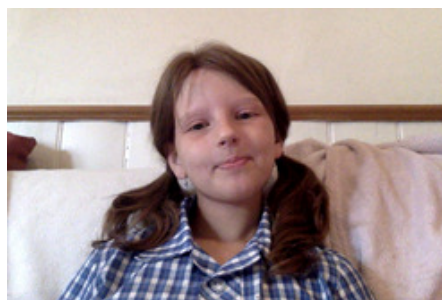

But when I was nearly 7 in Year 1 my hair fell out in clumps, so I started to wear thick headbands to cover the patches.

When I brushed my hair it fell out in the sink and the shower. It was terrifying!!!!

After my hair all fell out I started wearing pretty fabric headscarves that my awesome mum and dad made for me.

Questions kept firing at me, and I hated it!

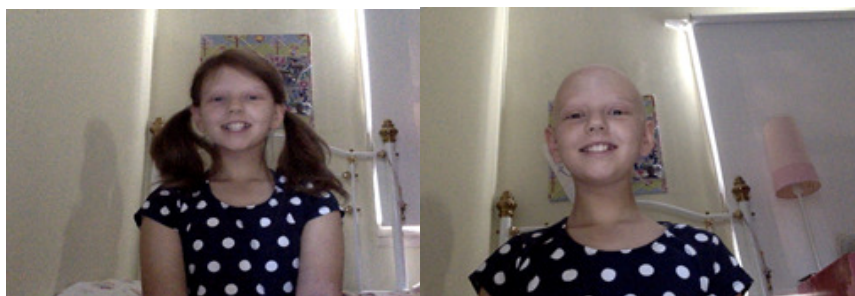

Arrr, do you have cancer?
This and that, why? AND WHY?
It never stopped!

Then a person came to talk to all the year 1 and 2's at school and most of the questions stopped.

In year 3 I got my 1st wig!!!!!!!!!!!!!!
It was a brownie red color.
Then last year I got my 2nd wig.
It's a nice long brown wavy wig. I love it!

So this is my story. I'm VERY happy now in my school and I have a great family and friends and I'm happy to live a very bald and happy life!!!!
