

Have you or a family member been diagnosed with Alopecia Areata?

If you meet the below criteria, you may be eligible to participate in a clinical trial.

- Greater than 50% scalp hair loss due to Alopecia
 - Scalp Hair loss lasting more then 6 months to 8 years
 - Aged between 18-65 years
-
- ✓ Participants will receive investigational oral medication (active study drug) or placebo.
 - ✓ Investigational medication and study-related care will be provided at no cost.
 - ✓ Reimbursement for study-related expenses will also be provided.
 - ✓ Study participation will last about 32 weeks and involve about 8 visits to the study centre.
